

New Caddy Brochure

Take on every drive with style and confidence in the new 5th generation Caddy.

The updated features and design are tailored to meet today's needs, making it perfect for everything from long family drives to everyday driving. With a modern new look, innovative driver assistance features and state-of-the-art technology, it's the vehicle that's ready to help you do life while enjoying the ride.

For whatever comes next

Styled to
stand out

Look the part for everyday adventures and unforgettable impressions. The distinctive design of the new Caddy's exterior combines dynamic lines with practical consideration.

Stylish front:

The outside now boasts a **stylish honeycomb grille** and **body-coloured bumper** that gives it a presence on the road.

Light the way

Get used to safer, more comfortable driving with **powerful LED main headlights** and separate, always-on **LED daytime running lights**. Our LED technology also includes cornering lights for increased convenience and visibility. The updated look also features a sleek, **new tail light design**.

Doors and windows:

With convenient **rear sliding doors** or **optional wing doors**, the new Caddy puts considered design into practice. Plus, the **optional panoramic glass roof** means you can add a premium feel while letting more light into every journey.

The new Caddy's interior is packed with innovative features which make it a genuine pleasure to drive.

Flexible Seating

With up to **7 seats with flexible configuration**, a second seating row can be double-folded and removed, while the third-row seats (on 7 seat models) can individually fold and be removed to be as adaptable and flexible as life requires.

More space

Handle more in less trips. Both the new Caddy and Caddy Maxi models have a **maximum load compartment volume of 2.5m³ and 3.1m³** with the seats removed. Enjoy **increased storage space** with a removable luggage compartment cover and handy draw storage.

Adjustable side mirrors

Electrically adjusted, heated and folding side mirrors that keep your sights on the road.

Functionality first

Connected technology

Local vehicle specifications may differ from model shown

The new Caddy's smart infotainment system keeps you connected and puts you in control.

App-Connect

App-Connect allows you to conveniently use selected apps, content or take calls from your smartphone, at the touch of a button. Content is transmitted to the display of the infotainment system and can be comfortably and clearly controlled within your line of vision.

Infotainment at your fingertips

The smart infotainment system gives you control of your drive. Through the **multifunction steering wheel**, you can connect from the outset to our Composition 20.96cm (8.25-inch) **intuitive touchscreen radio**. Comes standard with 6 speakers and 4 USB type C sockets (2 in the front and 2 in the rear).

Every drive you take is more protected than ever with our most advanced driving innovations.

Driver assistance

The new Caddy makes driving comfortable and safe with features like **Cruise Control**, **Rear View Camera** and **optional Park Assist and Trailer Assist**. Park Assist alerts you with visual and audible warnings if you're getting too close, while Trailer Assist automatically manoeuvres the vehicle and trailer during parallel and reverse parking.

Electronic Parking Brake (E-Brake) and Auto-hold

Both these brake technologies are used together for quick and easy parking. Auto-hold stops your car accidentally rolling back or forward on a slope and E-Brake lets you park quickly and easily.

Modular Transverse Matrix (MQB)

The new Caddy comes with innovative modern technology made to improve your drive. The MQB unlocks access and sharing of the latest driving technology across the Volkswagen range and creates a comfortable driving experience.

Innovative driving
