Disclaimer

***A combination of leather and high quality durable materials**
All diesel vehicles require low sulphur grade diesel of 50 ppm or lower.
Fuel consumption and CO² emissions values were obtained in accordance with the prescribed uniform measuring standard (SANS 20101: 2006 / ECE R101: 2005 in its currently applicable version).
The verified values do not apply to a specific vehicle and do not constitute part of the product offer. They are provided solely for the purposes of comparison between different vehicle models. Because of the need to maintain strict comparability of results achieved by the standard tests, they cannot be fully representative of real-life driving conditions. Variations in driving styles and in road, vehicle and ambient conditions, will have a bearing on the results achieved on the road. For these reasons consumption achieved on the road will not necessarily accord with these verified values.

Based on lightest variable (no options) and 90% tank filling. Weight may vary depending on options fitted to vehicle.
Dimensions, capacities and abilities apply to standard vehicles.
The above information was effective as at July 2021 and is subject to change.

Disclaimer

***A combination of leather and high quality durable materials**
All diesel vehicles require low sulphur grade diesel of 50 ppm or lower.
Fuel consumption and CO² emissions values were obtained in accordance with the prescribed uniform measuring standard (SANS 20101: 2006 / ECE R101: 2005 in its currently applicable version). The verified values do not apply to a specific vehicle and do not constitute part of the product offer. They are provided solely for the purposes of comparison between different vehicle models. Because of the need to maintain strict comparability of results achieved by the standard tests, they cannot be fully representative of real-life driving conditions. Variations in driving styles and in road, vehicle and ambient conditions, will have a bearing on the results achieved on the road. For these reasons consumption achieved on the road will not necessarily accord with these verified values.

Based on lightest variable (no options) and 90% tank filling. Weight may vary depending on options fitted to vehicle.
Dimensions, capacities and abilities apply to standard vehicles.

Transporter 6.1 Range

**Make light work of every load
with the Transporter 6.1 Range**

Lighten the load with the powerful and dynamic Transporter 6.1 Range. This range includes the Transporter 6.1 Crew Bus, Transporter 6.1 Panel Van and the Transporter 6.1 Single and Double Cab, designed to move even the heaviest of loads with ease.

Local vehicle specifications may differ from model shown.

Designed to **dominate**

Ever since the first Transporter rolled off the production line 70 years ago, it has set the benchmark standard in its class. Now back with new editions, the Transporter 6.1 Range is designed for those who get the job done. With its redesigned front end and interior, total connectivity, and ample space, it is a range for every possible business application.

As you'd expect, the Transporter 6.1 range is also incredibly durable, versatile and built to last, with a highly stable body, quality materials and time-honoured workmanship.

Local vehicle specifications may differ from model shown.

Local vehicle specifications may differ from model shown.

Robust, contemporary interior

New cockpit: dash panel, door, side and seat trim panels are finished in robust Dark Anthracite that doesn't show dirt.

Also, there's a fully adjustable steering wheel, driver's seat with four-way lumbar support, durable and robust new upholstery, newly designed dashboard and excellent all-round visibility – transforming the driving experience.

Lastly, to top off many other new standard features, all vehicles now have a radio system with integrated hands-free Bluetooth, App Connect and USB (type C) interface along with LED interior lighting.

Intelligent driver assistance **gives you peace of mind**

Local vehicle specifications may differ from model shown.

The Transporter 6.1 Range comes with a variety of state-of-the-art driver assist systems as standard.

These include: Driver Alert, Post-Collision Braking System, Crosswind Assist and Tyre Pressure Monitor.

Optionally available is Front and Rear Park Distance Control.

Lastly, a rear-view camera is also available as an option for the first time in conjunction with the rear wing doors.

Local vehicle specifications may differ from model shown.

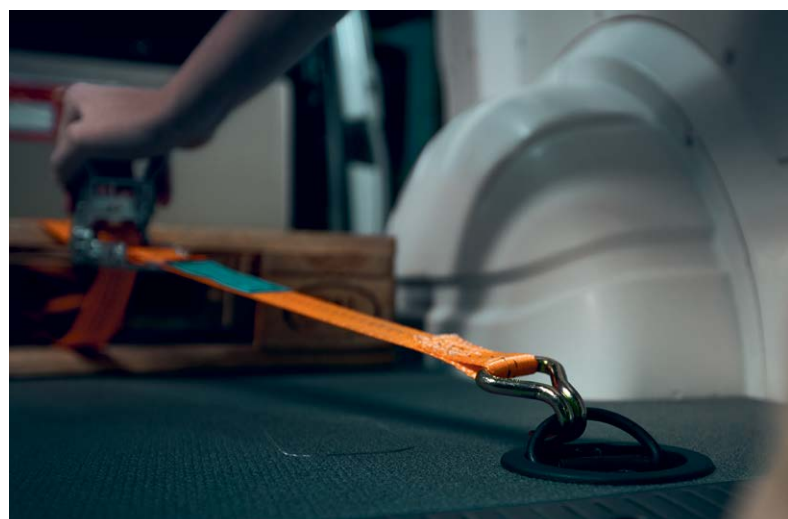

The all-rounder

**As you'd expect, the
Transporter 6.1 Crew Bus
is durable, versatile
and built to last.**

Quality materials and excellent workmanship combine to deliver a highly stable body that's as adaptable as you are.

Moreover, this powerful vehicle comes standard with multiple seating configurations and removable seats in the passenger compartment behind the driver and front passenger seats. It can also combine the functions of a Panel Van and Crew Bus, so no matter what type of jobs your business has to deal with, your Transporter 6.1 Crew Bus can adapt to your needs and transport your crew.

Local vehicle specifications may differ from model shown.

Impressive features for **an impressive vehicle**

The Transporter 6.1 Crew Bus is available in different seating configurations, 4MOTION, short and long wheelbase options, offering solutions for a vast range of tasks. The optional rear wing doors are now available with optional rear view camera as well.

Local vehicle specifications may differ from model shown.

The highlight of your drive

Highlights of the Transporter 6.1 Crew Bus include:

- Five, six, eight, nine, ten or eleven seats
- LED lights in the passenger compartment
- Sliding window in the sliding door
- Space for up to two Euro pallets behind 3-seater split bench seat in second row
- Multiple seating configurations
- Up to 1,967 mm load compartment length
- Up to 6.7 m³ load compartment volume

Seating designed for comfort and convenience

Take complete comfort in the fact that the rear passenger seat on the 5-seater version now comes standard with a split 2-seater bench plus single seat. On the other derivatives, the 8- and 10-seaters will have the 3 single seats in the first row of the passenger compartment. The rear seat on both the 8- and 10-seater have a 3-seater bench.

Wheels

Steel Wheels standard on the Crew Bus with optional 17" Alloy Wheels.

Local vehicle specifications may differ from model shown.

Space for **more**

Local vehicle specifications may differ from model shown.

The Transporter 6.1 Panel Van is designed for those who get the job done.

With a redesigned front end and interior, total connectivity, and ample space, it's the van your business needs.

The Transporter 6.1 Panel Van's loading sill and impressive load room make for the ideal working conditions. With the electromechanical power steering system, you get the benefit of even more helpful driver assist systems when on the road. In addition to space and power, the Transporter Panel Van is also designed to adapt to your needs with a range of conversions available.

A powerful **line-up**

The model line-ups for the Transporter 6.1 Panel Van include two derivatives available in 81kW and 110kW (DSG) respectively, both in LWB.

Local vehicle specifications may differ from model shown.

Highlights

- Crosswind Assist
- Ergonomic workplace
- Maximum trailer weight up to 2.5 ton
- Payload up to 1.3 ton
- Space for up to three Euro pallets
- Two roof heights
- Up to 1 410 mm load compartment height
- Up to 9.3 m³ load compartment volume

Dimensions:

There are two roof heights which offer plenty of loading space, available on the Panel Van Long Wheelbase.

Local vehicle specifications may differ from model shown.

All the space you need – **and then some!**

The double storage areas in the doors of the Transporter 6.1 Panel Van provide plenty of storage space for documents, devices and provisions to keep everything tidy.

The two-part storage compartments can be used for practical storage of documents and devices that need to be close at hand.

Local vehicle specifications may differ from model shown.

Local vehicle specifications may differ from model shown.

Full load. Heavy Traffic. **Many stops.**

The Transporter 6.1 Panel Van offers practical assistance for all these things.

With its especially convenient loading sill, impressive load room height and intelligently designed load securing options, it offers ideal working conditions. With the electromechanical power steering system, it now offers even more helpful driver assist systems when on the road.

Wheels

Standard Steel Wheels with optional 16" Clayton Alloy Wheels.

Transporter 6.1 **Cab Range**

Both the Single and Double Cab are powered by the 81kW manual engine. The Double Cab comes with the more powerful 146kW 4MOTION DSG model.

Local vehicle specifications may differ from model shown.

Highlights

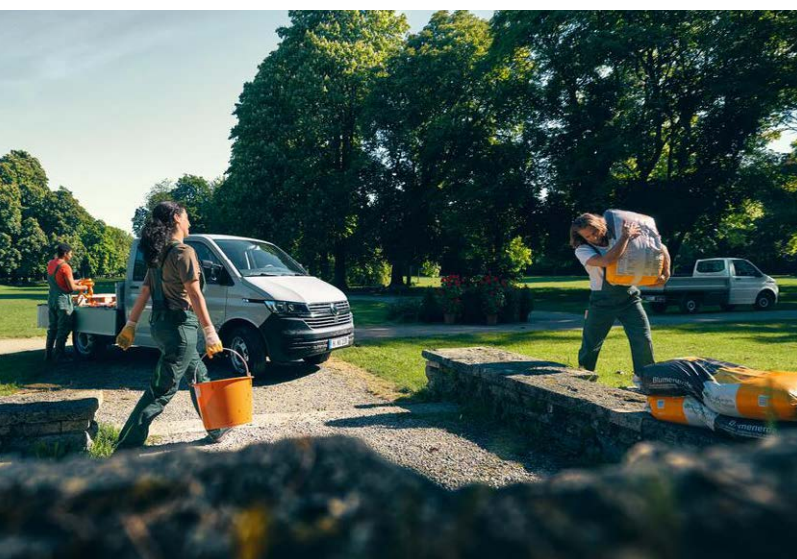

The highlights and Standard Features on the Transporter 6.1 Cab Range include:

- Crosswind Assist
- Ergonomic workplace
- Maximum trailer weight up to 2.5 ton
- Payload up to 1.3 ton
- Space for up to four Euro pallets
- Up to 5.7 m² load compartment area
- Long wheelbase
- Diesel fuel system plus water separator with sensor
- Front driver and passenger airbags

Local vehicle specifications may differ from model shown.

Safety first

Local vehicle specifications may differ from model shown.

The Transporter 6.1 Cab Range features an advanced safety system that brakes automatically after a collision to prevent a second impact. After a short delay, the vehicle begins a phased braking action down to 9.66 km/h, during which time the driver can take over at any point.

Single cab dimensions

- Load bed capacity of up to 4 Euro pallets
- 2,939 mm load length
- 1,940 mm load width
- 392 mm board height
- 904 mm loading height

Double cab dimensions

- Load bed capacity for up to 2 Euro pallets
- 2,169 mm load length
- 1,940 mm load width
- 392 mm board height
- 904 mm loading height

Wheels

Steel Wheels come standard on the Cab Range.

Local vehicle specifications may differ from model shown.

Customise your **Transporter 6.1**

**When it comes to conversions, the
Transporter 6.1 offers a unique level
of adaptability.**

This starts with the choice of two wheelbases and two roof heights. There are then four weight classes with a gross vehicle weight rating from 2.8 ton to 3.2 ton. All of the Transporter 6.1 variants come with impressive interior height in the load compartment – ideal for any type of conversion.

Power in **4MOTION**

The optional 4MOTION all-wheel drive automatically adapts the power transmission to the respective driving situation via an electronically controlled multi-plate clutch on the rear axle. The low system weight provides optimum vehicle handling and increased driving dynamics.

Mechanical differential lock, an optional additional support for the 4MOTION all-wheel drive, is available for the rear axle. This makes it easier to pull away in difficult off-road conditions and makes the Transporter 6.1 one of the most capable all-terrain vehicles in its class. Maximum trailer weight goes up to 2.5 ton in combination with the five and seven-speed gearboxes.

Tow bar preparation is available, or if you require greater flexibility a removable option is also available. Trailer stabilisation automatically intervenes if the trailer starts to swing, applying brakes where necessary to ensure the trailer is stabilised.
